

TRADE MULTIPLE PART NUMBERS FOR ONE

Our OE-quality Pro Series timing belt replacement kits include everything you need:

- **Timing Belt**
- **Idlers**
- **Tensioners** (incl. hydraulic damper if required)
- **Water Pump**
- **Cam & Balance Shaft Seals** (Pro Series Plus kits only)

Being dedicated to quality means taking an already great product and making it even better. That's exactly what we've done by adding cam & balance shaft seals to selected Pro Series Timing Kits. These new kits go by the "Pro Series Plus" name and join the standard Pro Series program — giving professional repair technicians a choice of truly complete kits.

As our most comprehensive kits to date, the Pro Series Plus line is a service technician's dream — literally. After listening to feedback and conducting extensive field studies, we realized we could fit even more convenience and cost effectiveness into our timing kit boxes. By replacing the timing belt and all related components at the same time, you can rest assured the entire belt system will perform correctly for the intended life of the belt. Which means fewer returns.

We promise to go the extra mile — or 100,000*

Both Pro Series and Pro Series Plus timing kits are guaranteed by CRP Automotive up to the manufacturer's recommended service interval. All the way up to 100,000 miles. And the best part for professional repair technicians is that every Pro Series kit now comes with a Guarantee Certificate to give to customers. The Guarantee Certificate is a visual representation of the quality of the Pro Series Kit, and of the quality of your work and trustworthiness. And we're the only ones to offer it.

So when you're ready to place your next order for a timing belt kit, be sure to ask for the Pro Series Plus timing kit from CRP Automotive by name.

CRP Automotive's timing kits are designed to fit your needs

At CRP, we understand that service technicians and their customers have unique needs. That's why we're dedicated to offering you a variety of timing belt solutions:

- **Timing Belts**
- **A Traditional Timing Kit** (belts, tensioner, and idlers)
- **Pro Series** (adds water pump and hydraulic damper where applicable)
- **Pro Series Plus** (adds cam & balance shaft seals)

And while we're known for innovation, we're always willing to listen to your suggestions or requests.
